Connecting businesses since 2007.

Thank you for considering Lantech Multi System Inc. This profile introduces our team, our capabilities, and the work we have delivered for organizations across Metro Manila and beyond.

Your end-to-end network infrastructure partner

Lantech Multi System Inc. is a Filipino-owned company founded in April 2007, built by a team of professional engineers, designers, and IT specialists.

We deliver complete, end-to-end system solutions: the design, supply, installation, and maintenance of data and voice networks (fiber and copper), electrical wiring systems, CCTV surveillance, and door access control — using sophisticated, reliable, high-performance components.

Every project is carefully planned and coordinated to finish within its agreed time, cost, and performance targets. Goals are set, priorities defined, and tasks and workmanship estimated before work begins; once underway, progress is closely monitored until every objective is achieved.

Lantech extends the product and performance warranties of leading global vendors, backed by our own workmanship warranty — giving clients peace of mind and systems engineered for long-term reliability.

Passive component warranty

Mission, Vision & Values

Our Mission

To provide the highest level of satisfaction to our customers, and to be one of the major players in the power, data, and telecommunications industries through the continuous improvement of our skills.

Our Vision

To invest heavily in technology that supports our clients' requirements for today, tomorrow, and the future — and, with our clients' support, to grow profitably together through new product developments, market expansion, and new ventures.

What we stand for

Quality Products

A diverse range of innovative, quality products — from fiber optics to LAN wiring systems — for telecom, datacom, and CCTV applications.

Customer Service

Our dedication goes beyond good products: we understand your changing needs and commit to responsive service and fast turnaround.

Lasting Reliability

Passive components are warranted free from craftsmanship defects for twenty (20) years from the date of manufacture.

Continuous Growth

Ongoing vendor certification and technical training keep our people current with evolving standards.

On-Time Delivery

Projects are planned and monitored to finish within agreed time, cost, and performance guidelines.

Long-Term Partnership

Systems engineered and tailored for our clients' satisfaction, built for doing business together for years to come.

Products & Services

Five core systems, one accountable partner — from the data cabinet to the front door, we design, supply, install, and maintain the systems your building runs on.

STRUCTURED CABLING & FIBER OPTICS

01

Data

Design and installation of copper LAN systems (Cat5e, Cat6, Cat6A) and single-mode / multimode fiber backbone — patch panels, splicing, termination, labeling, testing, and documentation. Includes active network equipment: switches, routers, and wireless for WAN, LAN, and WLAN.

Cat5e / Cat6 / Cat6A

Fiber optic

Switches, routers & Wi-Fi

PBX, TELEPHONY & INTERCOM

02

Voice

Supply, installation, and maintenance of hybrid and IP-PBX systems with voicemail, from small offices to large enterprises, plus master-to-remote station intercom and door phone systems.

Hybrid / IP-PBX

Voicemail

Intercom

POWER & WIRING SYSTEMS

03

Electrical

Electrical design and layout, wiring installation, and rehabilitation of existing wiring using trusted brands.

Design & layout

Wiring installation

Rehabilitation

SURVEILLANCE SYSTEMS

04

CCTV

IP and analog camera systems with PTZ, infrared, motion detection, and recording for offices, malls, schools, and banks.

IP & analog cameras

PTZ / infrared

Motion detection & recording

ACCESS CONTROL SYSTEMS

05

Door Access

Secure, controlled entry for your people and premises — card and keypad readers, electric door locks, and access controllers, integrated with CCTV and intercom for complete in-building security.

Card / keypad readers

Electric door locks

CCTV & intercom integration

Supporting services

Racks, Cabinets & Trays

Equipment racks, data cabinets, wall-mount and open-bay racks, pull boxes, shelves, cable trays, and ladders.

Fire Protection

HCFC-123 clean-agent extinguishers — safe for computers and electronics, non-toxic, multi-shot, sensor-capable (10, 15, 20 lb).

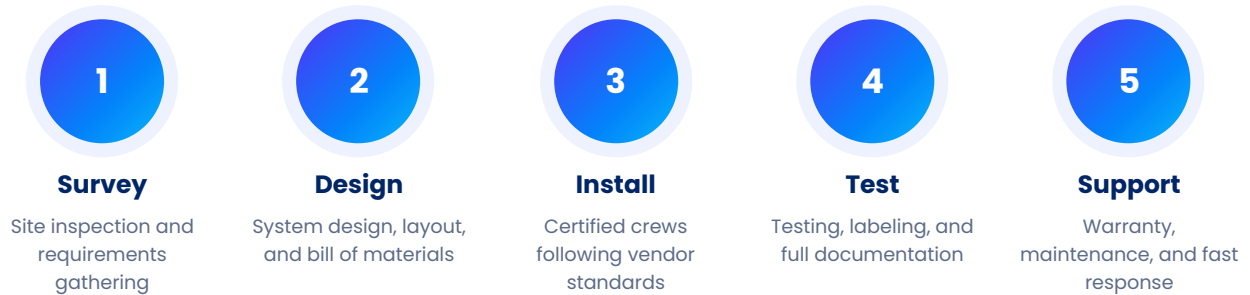

Maintenance & Support

Preventive maintenance, troubleshooting, upgrades, and rehabilitation of existing voice, data, and power installations.

Our Approach

Every installation is treated as a unique project with a specific set of objectives — planned, coordinated, and closely monitored from survey to turnover.

Project delivery process

Why clients choose Lantech

- ✓ Filipino-owned and operating since 2007
- ✓ Certified installer for leading global cabling brands
- ✓ Clean, organized, fully labeled installations
- ✓ Team of engineers, designers, and IT specialists
- ✓ One partner for data, voice, electrical, CCTV, and door access
- ✓ Projects delivered on time, on budget, to spec

20
YEARS

Product & Performance Warranty

Lantech extends the product and performance warranties of leading vendors worldwide, backed by our own workmanship warranty. Passive components are warranted free from defects in craftsmanship for 20 years from the date of manufacture.

Technology Partners

We work with world-class manufacturers so every system we deliver is built on proven, standards-compliant components and backed by genuine vendor warranties.
